ABOUT US

LOCATION AND ENROLLMENT

- Enrollment
 - ~37k+ students from 130+ countries
 - Projected increases of 1k per year over next 5-6 years (online)
- Over 1500+ Instructional and Research Faculty
- 10 colleges and schools
- Campus locations
 - 4 locations in Northern Virginia (Fairfax/**Main**, Arlington, Manassas, and Sterling)
 - **International:** Songdo (Korea)

ACCESSIBILITY@MASON: A COLLABORATIVE PARTNERSHIP

The background is a solid orange color. On the left side, there is a large, stylized, light-orange geometric shape that resembles a stylized 'M' or a series of overlapping triangles. In the upper right quadrant, there are several curved, light-orange shapes that look like stylized leaves or petals fanning out towards the top right corner.

DOCUMENT ACCESSIBILITY: BACKGROUND

STATEMENT OF THE PROBLEM

- **Large numbers of students with print impairments** enrolled at institution
 - Average 40-50 students with visual impairments that may require services
 - # of totally blind students fluctuates between 0 – 15 with active needs
- Issues with **lack of timely access to instructional materials** (docs & supplemental applications)
 - *Factors:* lack of communication, lack of adequate staffing, lack process, etc.

ATTEMPTS TO ADDRESS ISSUES...

- Faculty/Staff Training and/or Remediation Support
 - Group/Individual (compliance), one-to-one support (accommodation)
- Automated OCR solutions (i.e., ABBYY Recognition Server) (~2012)
- Doc Accessibility Pilot (Fall 2014)
 - 2 IDs, 3 Faculty Members
 - **Findings:** Doc Formats (Word, PPT, PDF), *CommonLook Office Pro*, *Acrobat Pro*, strategies for supporting faculty with students with visual impairments
- Online course accessibility reviews (Spring 2015 – Fall 2017)
 - Partnership with Office of Digital Learning
 - **Findings:** Snapshot of accessibility problems (over 100 online courses reviewed in 2 years – e.g., captions vs. docs), need to offer accessibility services/solutions/targeted trainings

A large, stylized, light gray letter 'M' is positioned on the left side of the slide. To its right, there is a fan-like graphic composed of several curved, overlapping segments of varying shades of gray, creating a sense of motion or a stylized 'A' shape.

DOCUMENT ACCESSIBILITY: CURRENT PROCESS

PILOT PARTNERS

Disability Services (DS)

- Faculty/Staff trainings 2-3 weeks prior to semester for faculty teaching students with visual impairments
- *Accommodation-focused*
- **Training:**
 - Document Preparation (alternative text, headings, tables, built-in slide layouts)

Office of Digital Learning (ODL)

- Online Course Development Trainings for faculty teaching online courses
 - SOUPR – 1yr, OCDI – 6wk
- *Compliance-focused*
- **Training:**
 - Document Preparation (alternative text, headings, tables, built-in slide layouts)

PROCESS OVERVIEW

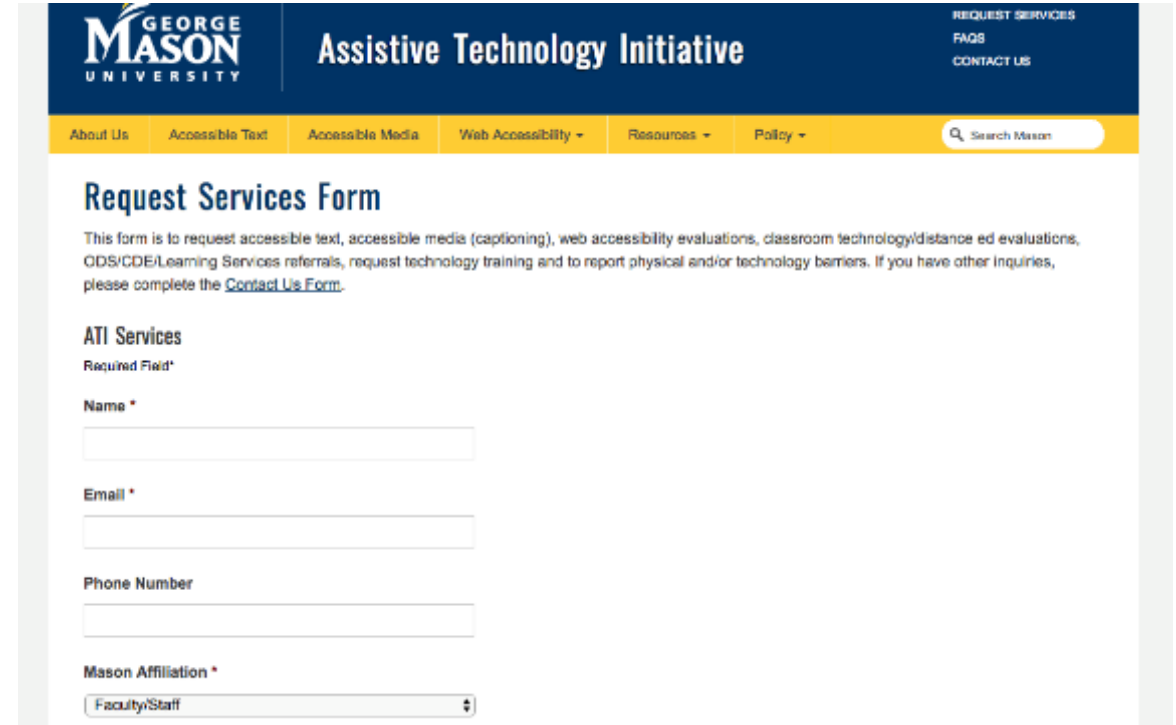

STEP 1 – NEW REQUESTS

URL

<https://ati.gmu.edu/request-services-form/>

Information Collected

- Type of Request (Accommodation, Compliance, SOUPR/OCDI)
- # of Documents
- Document Types (PDF, Word, PPT)
- Due Date
- Semester
- First & Last Name of Submitter
- Course Name and # (e.g. MGMT 100)

The screenshot shows the 'Request Services Form' on the George Mason University Assistive Technology Initiative website. The header includes the university logo, the title 'Assistive Technology Initiative', and links for 'REQUEST SERVICES', 'FAQS', and 'CONTACT US'. A navigation bar contains links for 'About Us', 'Accessible Text', 'Accessible Media', 'Web Accessibility', 'Resources', and 'Policy', along with a search bar. The form itself is titled 'Request Services Form' and includes a descriptive paragraph about its purpose. Below this, the 'ATI Services' section is marked as a 'Required Field'. The form contains input fields for 'Name', 'Email', and 'Phone Number', and a dropdown menu for 'Mason Affiliation' with 'Faculty/Staff' selected.

STEP 2/3 – DOCUMENT REMEDIATION WORKFLOW

Workflow Steps

1. Document(s) uploaded directly to **request form** or emailed to ATI
2. Information entered into spreadsheet for tracking purposes
3. **Document(s) reviewed** and then moved to '*Step 1 - New Request*' folder
4. Student worker starts initial **remediation** (i.e., headings, lists, etc.) and moves to '*Step 3 Word/PPT*' and '*PDF*' folders for **additional remediation** (i.e., alt text, hyperlink text, etc.)*
5. After remediation, documents moved to '*Step 4 – Quality Control*' folder for **quality check**
6. If necessary, documents with issues are returned to the '*Step 1 – New Request*' folder with notation indicating issue. ATI staff is also alerted.
7. Once document(s) pass QC, source and remediated document(s) moved to faculty's Dropbox folder. Faculty member receives email with link to the folder.**

STEP 2/3 – GENERAL DOCUMENT REMEDIATION TASKS

Word and PowerPoint

- Headings
- Lists
- Meaningful Hyperlink Text
- Tables
- Color Contrast
- Alternative Text for Images

PDF

DOCUMENT ACCESSIBILITY: POST-PILOT RESULTS AND FINDINGS

TRAININGS CONDUCTED (1-YR)

Disability Services (10)

- Face-to-face *Faculty* trainings prior to fall and spring semesters (4)
- One-to-one *Faculty* trainings during semester (6)

Office of Digital Learning (13)

- Face-to-face/Online faculty training workshops (9)
- One-to-one Faculty/Staff sessions (4)

PILOT RESULTS (1-YR)

- **Faculty/Staff Participants:** 40
- **# of Docs Processed**
 - 498 documents
 - 7,956 pages
- **By Format**
 - 196 PPT (39%), 147 Word (30%), 155 PDF (31%)
- **By Type of Request:**
 - 49% Compliance (244 requests – 62% SOUPR)
 - 51% Disability Accommodation (254 requests)

ADDITIONAL FINDINGS

- Avg. turnaround time – Approx. 2 weeks*
- Avg. document length – Approx. 15 pages
- Format-specific findings...
 - **Word**
 - Syllabi
 - More common to have tables than images
 - **PPT**
 - Most faculty use built-in layouts
 - More training needed with respect to use of nested tables, grouping images, alternative text
 - **PDF**
 - Articles pulled from databases or web
 - Scans of hard-copy resources/scans of scans
- Only one instance where same document was used in another course**

HITS AND MISSES

- **What worked...**

- Trainings (student workers, faculty/staff)
- Partnerships with DS and ODL
- Hybrid process (Assembly-line approach vs. Per file)
- Online submission workflow
 - STEM content, Tactile graphics
- Increased ATI's capacity to provide timely access for other types of requests (e.g., STEM, tactile graphics)

- **What DID NOT work...**

- Faculty training (sometimes)
- Document management/Data tracking
- Assembly line approach solely

BLACKBOARD ALLY SANDBOX

- 6-month pilot (March 2018 – Sept. 2018)
- Uploaded documents submitted for processing and those completed post-remediation
- Laying groundwork

The screenshot displays the Blackboard Ally Sandbox interface, showing the processing status of documents for the course 'Buford - SPMT 420'. The interface is divided into two sections: 'Buford - SPMT 420' and 'Buford - SPMT 420 (After Remediation)'. Each section lists attached files with their status icons (green for successful, red for failed) and file sizes.

Section	File Name	Status	Size
Buford - SPMT 420	Professional-league-overview.docx	Success	75.359 KB
	Unit-3-Case-Overview.docx	Success	89.466 KB
	Dallas-Cowboys-Economic-Impact-Study.pdf	Success	626.097 KB
	Midterm-review.docx	Success	106.406 KB

GOING FORWARD

2ND-YR NUMBERS, SO FAR (AS OF 11/09)...

- **Faculty/Staff Participants: 35***
- **# of Docs Processed**
 - 416 documents
 - 5,299 pages
- **By Format**
 - 178 PPT (43%), 90 Word (21%), 148 PDF (36%)
- **By Type of Request:**
 - 65% Compliance (80% SOUPR)
 - 35% Disability Accommodation

NEXT STEPS

- Streamline Workflow
 - Document Management System (Ticketing)
 - Staffing responsibilities (reduce costs)
- Training
 - Re-training for student workers (software updates, consistency, etc.)
 - Document preparation (videos)
- Seek out new partners...
 - by Academic Dept. (*MAPPS Initiative*)
 - ODL/Academic Units (*Bb Ally*) – Plans to increase online offerings/programs
