

# FREE NaturalReader 14 (PC)

NaturalReader is a text to speech software utilized to listen to e-textbooks, PDF files, webpages, and other documents. Download the Windows version at <http://www.naturalreaders.com/download.html>.

## Open NaturalReader

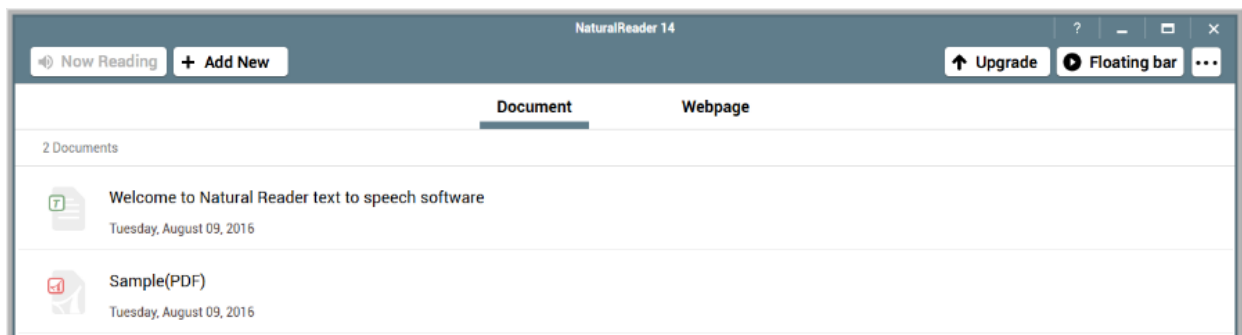

1. Click on the '**Start Icon**'.
2. Select '**NaturalReader Free**' from the Naturalsoft folder.

3. The program defaults to a document list and webpage window.

## Add a Document

4. To add a document, click on the '**+ Add New**' button then select '**Open (Existing Files)**'.
5. The document will open. Press the '**Back to Library**' button to return to the documents list.

## Listen to a Document

6. Double click a document in the document list.
7. Press the '**Play**' button to begin listening to the document.
8. Press the '**Stop**' button to end listening to the document.

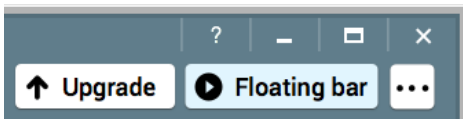

## Listen to a Webpage

9. To listen to a webpage, copy and paste a URL into the text box.
10. Press the 'GO' button.
11. Then click 'Listen Now' button to begin listening to the webpage.

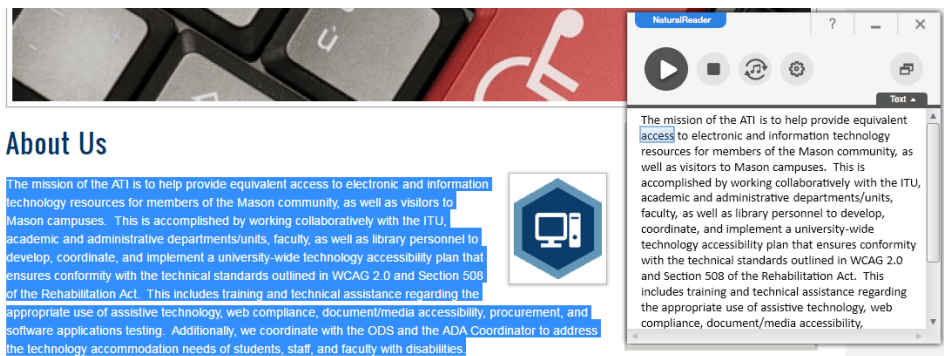

## Floating Bar

12. To access the Floating bar, click on the 'Floating Bar' button.

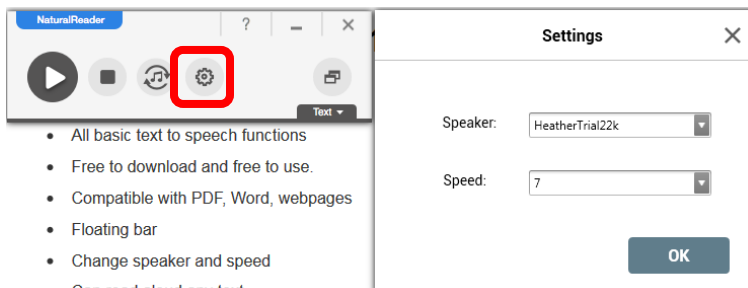

13. Highlight any passage in a document or webpage (The example below is from a webpage).
14. Click the 'Play' button to begin listening to the selection.
15. Click the 'Text' icon to follow along while NaturalReader is reading.

## Modify Speech Settings

16. Click on the 'Settings' button to adjust the speech speed and change the voice of the reader.

17. After making adjustments, click 'OK'.

## Additional Information

18. Watch an overview YouTube video about NaturalReader at <https://www.youtube.com/watch?v=qIHXYwt1Zi8>
